ARE YOU FORMING A CLUB?

You have shown a sample copy of THE GLOBE to all your neighbors and friends! You have only to call attention to its unequalled merits as a family newspaper and to the long-time offer, and you will secure a large number of subscribers. Let every subscriber and every one who reads this notice form a rousing club.

HOW TO REMIT, ETC.

THE WEEKLY GLOBE is sent everywhere in the United States and Canada, one year, free of postage, for only \$1.00; six copies for only \$5.00.

All subscriptions should be sent by postal order, or draft on New York or Boston, though, if more convenient for the sender, postage stamps will be accepted. When stamps are sent they should be of the denomination of one, two or three cents.

To ensure immediate attention and prompt answers, all letters should be addressed to "THE WEEKLY GLOBE, Boston, Mass."

Every letter and postal card should bear the full name of the writer, his post office, county and State.

Every notice of change of residence should give former as well as present address, and both in full.

Every notice to discontinue should give the town, county and state to which the paper is being sent.

All notices in the mails will be duplicated free of expense.

When postage stamps are sent they should not be registered.

All exchange newspapers and magazines should be addressed simply, "The Drawer 5220, Boston, Mass."

Sample copies are free.

TO OUR READERS.

When you answer any of the advertisements in this paper, please do us the favor to mention that you saw the same in THE BOSTON WEEKLY GLOBE.

LAPSED LAND GRANTS.

The test vote on the land grant question in the House seems to have committed Congress to a policy of rigid enforcement of all land grant features. Public opinion long ago decided that the railroads should not be permitted to gobble up vast tracts of land in defiance of law and equity, and it is high time for Congress to take hold of the matter in earnest, and force them to let go their hold on the public domain. They never had any right to the land in the first place, for the good and sufficient reason that Congress never had any right to give away the people's birthright. Perhaps our purblind statesmen may some day get their eyes opened to the truth that no man has a right to levy blackmail on the cultivators of the soil. Meanwhile they can do some good by curbing the avarice of the land grant railroads that want the earth and are fast acquiring it. The New York Tribune is in a state of wild alarm because of the prospect that something may be done in the interest of the people, and says:

MONEY IN FARMING.

Will every agent who sent a club last year kindly see each member and secure his subscription and renew the club for this year? Ask all your friends and neighbors to subscribe, and increase the club by the addition of many new names. It is easy to secure subscribers to THE WEEKLY GLOBE, because it shows for itself that it is the best dollar weekly in the United States.

It is the latest organization of this kind. It offers an elaborate course of instruction in all collegiate studies, with the different branches, from agriculture to Hebrew, under the superintendence of well-known specialists and university professors. Verily, in these latter days the mountain of knowledge runs up and makes haste to MAHOMET and knocks at his front door.

And now there is announced a "Summer School of Travel" for teachers, who are to resolve themselves into a kind of perambulating normal school, with a regular course of study to be followed by others at home, who cannot go on the journey. These are only a few of the large number of such societies. There are also innumerable reading clubs that study special authors. Altogether, their name is legion.

Of a truth, the American people not only want to know, but they are determined to find out.

It is a moving tale.

A Southern paper tells some queer tales about the furniture-moving exploits of a fragile girl of 15, who expects people to believe them. This young lady commands tables and chairs to move, and the obedient furniture sets up a war-dance that is dangerous to the astonished spectators.

The editor of the voracious Southern paper thus describes one of the antics put up by the girl: "A very large family bed stood with the head back in the corner of the large room. On the foot of the bed the young lady placed her hands lightly, and after a few minutes the heavy object began to move, and, gradually becoming more restless, was soon moving about the room at a speed so rapid that the young lady had to assume a "double quirk" to retain position a single.

The Tribune does not even know what "Communism" means, but applies the term indiscriminately to every measure that aims to protect the people from robbery and curtail the power of corporations. That is, perhaps, the Tribune is ignorant of what constitutes communism, but that is taking a lenient view of the case. It is more probable that the outrageous misapplication of the term is intentional, and that the purpose of the Tribune is to cast odium on Democratic principles, and arouse prejudice against the party and its efforts in behalf of the people. According to the Tribune, any one who objects to having his pocket picked by a rich robber is a Communist and a member of the dangerous classes. The Tribune is pleased to admit, because it cannot plausibly deny, that in some cases grants have lapsed by non-fulfillment of conditions, but follows this admission with the declaration: "But a large proportion of the bills pending have no other aim than to wrest from the holders property of which it is feared the courts would finally declare them the rightful owners."

Some people appear very anxious to know why FREDERICK DOUGLASS married a white woman.

To one who, having been chased up a tree, views the world from an altitude of unprejudiced indifference, it appears to be nobody's business.

And now arises a sea captain who saw a blue sun down the other side of the equator. Any number of green ones have been reported from that same region. It is a proper time for the philosophical individual to remark that "something is going to happen."

The remains of HERR LASKER have been received in Germany with the greatest honor, fitting his great services and his important position and influence. And yet when he visited this country he received less attention than OSCAR WILDE or MARY LANGTRY.

Friends of the Mexican treaty propose to make every effort to have it ratified when it comes up this week. As it was defeated by only a few votes, and special efforts were not made to ensure its passage, it is probable that it will go through without much difficulty.

A New York Judge has discharged two prisoners arrested for gambling because he "can't see that a quiet game of poker is gambling, except technically." Possibly his honor is not blissfully ignorant of the relative values of the fulsome flush and the busted straight.

Mr. JOHN LUBROCK, the distinguished English naturalist, has an idea that if some such system as is followed in teaching deaf mutes were to be tried in the training of animals, it might be possible to teach them to converse with man. He gives an account of some experiments he tried with a dog in which the animal was taught to make known simple wants by means of cards on which different words were printed.

FRED DOUGLASS' marriage shows the queerest imaginable changes in public sentiment within not so very many years. It isn't long since there would have been a howl of horror from North to South because a white woman had married a negro. Now the greatest comment and disturbance made about it comes from the colored people themselves, who think that Douglass did wrong to a white woman.

Another victim of our irrational school system has been added to the list. Miss SUSIE B. HOPPER graduated from the Paterson High School last year, and she was buried last week in her graduation dress. The reaction from study and the excitement incident to her examination for a teacher's certificate threw her into a brain fever, which proved fatal. This is one result of the attempt to measure the mind of man by percentages and competitive examination. The mindless miseducators of children have much to answer for in these days.

GENERAL BUTLER, being no longer in the executive's chair, some of our esteemed contemporaries are giving him credit for doing a wise and humane thing while he was governor. But, if memory serves us, the same esteemed contemporaries looked at the matter differently when Governor BUTLER put State detectives at work collecting evidence of the innocence of ROGER AMERO. It was an "unwarranted use of executive power" when politics demanded that no good should be seen in anything done by BUTLER. How time does soften the asperities of politics!

In giving credit for services rendered to the survivors of the Devil's Bridge, the people of Gay Head have not always been remembered.

Now that the excitement has subsided and the facts are being told, it appears that the Gay Headers were among the most active and indomitable in the work of rescuing and taking care of the survivors and securing the bodies of those who were drowned. It is the testimony of all who were engaged in the search for missing friends that the aid rendered by the people of Gay Head was prompt, efficient and self-sacrificing. These people should not be forgotten nor their deeds left unrewarded.
